

Forsvarede ph.d.-afhandlinger

Afhandlingerne kan ses på Sundhedsvidenskabeligt bibliotek, Nordsjællands Hospital.

2018

- Marie Moth Henriksen, læge, Endokrinologisk og Nefrologisk afd. Occurrence and consequences of silent hypoglycaemia in type 1 diabetes.
- Iain Bressendorff, læge, Endokrinologisk og Nefrologisk afd. Magnesium and Vascular Calcification in Chronic Kidney Disease.
- Gertrud Baunbæk Egelund, Læge, Lunge- og Infektionsmedicinsk afd. Community-acquired Pneumonia – Treatment and prognosis.
- Anne-Luise Thorsteinsson Carlsen, læge, Kardiologisk, Nefrologisk og Endokrinologisk afd. Parathyroid hormone treatment of osteoporosis in Danish patients Compliance, cost-effectiveness and complications.
- Christel Halvor Trøstrup, sygeplejerske. Recap - rehabilitering for cancerramte patienter og deres partner.
- Rikke Agesen, læge. Kardiologisk, Nefrologisk og Endokrinologisk afd. The effect of insulin analogues on frequency of nonsevere hypoglycaemia in patients with type 1 diabetes and recurrent severe hypoglycaemia.
- Camilla Bernild, sygeplejerske, Ortopædkirurgisk afd. Pårørendeinddragelse i praksis – et aktionsforskningsprojekt på en hospitalsafdeling.
- Ture Larsen, Dirigent Kvalitets- og Udviklingsafdelingen, SimNord. Conducting the emergency team. Focus on leadership.
- Maria Pedersen, Sygeplejerske, Kardiologisk, Nefrologisk og Endokrinologisk afd. Mechanisms of social inequality in cardiac rehabilitation attendance among patients with acute coronary syndrome: A mixed methods study
- Andreas Vestergaard Jensen, læge, Lunge- og Infektionsmedicinsk afd. Community-acquired Pneumonia and Diabetes Mellitus DIA-CAP
- Rasmus Ehrenfried Bertelsen, læge, Anæstesiologisk afd. Fluid overload in critical illness: Cause or treatment of acute kidney injury

2017

- Pernille Castensøe-Seidenfaden, læge, Børne Unge afd. Development and evaluation of an mHealth app to young people with diabetes to support self-management
- Jakob Kleif, læge, Kirurgisk afd. The QoR-15 as a Patient Reported Outcome Measure of Quality of Recovery after surgery
- Sofie Sølvsten Sørensen, læge, Neurologisk afd. Micro-RNA as biomarker of acute ischemic stroke and dementia
- Birgitte Johanne Schmidt, læge, Børne Unge afd. Tidal exhaled Nitric Oxide in neonates – a longitudinal study

- Helga Holm Schultz, læge, Kardiologisk, Nefrologisk og Endokrinologisk afd. Diabetes induced by glucocorticoid in cancer patients.
- Rikke Winge, læge, Ortopædkirurgisk afd. Compression in Anklefracture Treatment, The CAT-Study.
- Stine Attrup Schrøder, læge, Øre, Næse og Halsafdelingen. Sialolithiasis in Denmark – Epidemiology and association with bacteria and inorganic compounds.
- Christian Rothe, læge, Anæstesiologisk afd. Postoperative shoulder pain. Development of selective ultrasound-guided techniques.
- Suher Othman Abu Hassan, læge: Monitoring Ovarian Cancer patients during chemotherapy and follow-up with serum tumor marker CA125.

2016

- Ellen Frøsig Moseholm Larsen, sygeplejerske: Health-related quality of life in patients with serious nonspecific symptoms undergoing diagnostic evaluation for possible cancer: a mixed methods study.
- Dorthe Gaby Bové, sygeplejerske: Self-management Support for Patients with Advanced Chronic Obstructive Pulmonary Disease
- Claus Anders Bertelsen, læge: Complete Mesocolic Excision - An Assessment of Feasibility and Outcome
- Janet Froulund Jensen, sygeplejerske: Recovery and Aftercare in Post-Intensive care Therapy patients, the RAPIT study.
- Märta Fink Topsøe, læge: Tranexamic acid as prophylaxis of hemorrhage in benign hysterectomy
- Theis Skovsgaard Itenov, læge: Recovery of kidney function after acute kidney injury in critical ill patients
- Thomas Stig Hermansen, læge: Interferon Gamma Release Assays in Denmark, population-based studies from a tuberculosis low-incidence country.

2015

- Anna Maria Strømme: Physical activity in acute ischemic stroke and transient ischemic attack
- Rikke Lindgaard Hedeland: Suicide Attempts with Acetaminophen in Adolescence - A Study of Early Predictors of Hepatotoxicity and Social-Pediatric Risk Factors
- Anne-Sophie Sejling: Recurrent hypoglycemia in type 1 diabetes: Effects on cognitive function, cerebral electrical activity, and skin temperature.
- Natalia Pedersen: EHealth: Self-management in Inflammatory Bowel Disease and in Irritable Bowel Syndrome using novel Constant-Care Web Applications.
- Anders Kehlet Nørskov: Pre-operative airway assessment - Experience gained from a multicentre cluster randomised trial and the Danish Anaesthesia Database.
- Jane Bendix: Activity restriction and hospitalisation in threatened preterm delivery.

2014

- Semera Asghar: Thermographic patterns after ultrasound-guided upper limb nerve blocks and their role in predicting brachial plexus block success.
- Dennis Raahave: Faecal retention : A common cause in functional bowel disorders, appendicitis and haemorrhoids - with medical and surgical therapy.
- Helle Skovmand Bosselmann: The Cardiorenal Syndrome Type 2 : Emphasis on Cardiac Biomarkers, Echocardiographic Measures and Risk of End-Stage Renal.
- Nikolaj Sebastian Winther: Early changes in BMD after insertion of the uncemented Vanguard TKA (porous plasma spray coated) and the influence of a novel porous titanium surface (Regenerex) on tibial component migration and adaptive bone remodeling of the proximal tibia.
- Gitte Husted: Guided Self-Determination-Youth : a life skills intervention for adolescents with poorly controlled type 1 diabetes and their parents.

2013

- Louise Færch: Renin-angiotensin system activity in type 1 diabetes: long-term association with severe hypoglycaemia, effect on cognitive function and mortality.
- Rie Adser Virkus: Venous thromboembolism in pregnant and puerperal women in Denmark 1995-2009.
- Stig Mølsted: Strength training in patients undergoing dialysis.

2012

- Charlotte Barfod: Prediction of adverse outcome in the acutely ill patient triaged in the emergency department.
- Bahir Hadi Aldulaymi: The effect of chemotherapy and/or radiotherapy on serum CEA and plasma TIMP-1 levels in patients with colorectal cancer

2011

- Peter Lommer Kristensen: Hypoglycaemia in type 1 diabetes: roles of EPO and VEGF

2010

- Anita Sylvest Andersen: Hypercoagulability and hypertensive disorders in pregnancy

2009

- Line Cleeman: Turner syndrome in childhood and adolescence - a multifaceted state of health. The internal genitalia, bone mineralization and aortic dilatation.
- Lise Grimmeshave Bie-Olsen: Influence of hypoglycaemia and basal renin-angiotensin system activity on regional cerebral blood flow during different cognitive loads: a H2 15 O PET study.

2008

- Camilla Ryge: Epidemiology Study in Major Orthopaedic Surgery : A prospective Follow-up Study of 500 Total Hip Arthroplasty Patients with Focus on Thromboembolic and Surgical Complications.
- Rikke Due-Andersen: Influence of the renin angiotensin system on cardiac repolarisation and NT-proBNP release during hypoglycaemia and hypoxaemia.

2006

- Morten Breindahl: Inflammatory mediators in infants infected with respiratory syncytial virus (RSV).
- Thomas Høi-Hansen: Hypoglycaemia in type 1 diabetes assessed by continuous glucose monitoring.
