

Research Career Opportunities for Healthcare Professionals

Internationalt symposium om forsknings- og karrieremuligheder for sundhedsprofessionelle.

Bliv inspireret til en forskningskarriere

Mange sundhedsfaglige medarbejdere kender ikke de uanede karrieremuligheder, der eksisterer inden for forskning og kliniske forsøg. Derfor inviterer Nordsjællands Hospital og Trial Nation til et forskningskarrieresymposiet **Research Career Opportunities for Healthcare Professionals** i Hillerød.

Symposiet har til hensigt at inspirere sygeplejersker, fysioterapeuter, jordemødre, bioanalytikere og andre sundhedsprofessionelle til at gøre karriere inden for forskning i både offentligt og privat regi.

Du får indsigt i de mange forskelligartede karrierevalg, der eksisterer for både dig, der er nyuddannet og dig, der har mere erfaring.

Du får mulighed for at udvide din horisont og skabe nye bekendtskaber, der kan hjælpe dig videre i din karriere inden for eksempelvis akademisk forskning eller kliniske forsøg.

I Danmark er læger og andres faggruppers forskning opdelt i separate spor, men sådan behøver det ikke nødvendigvis at være.

14 oplægsholdere for ind- og udland

Symposiet består af tre sammenhængende temasessioner med i alt 14 forskellige oplægsholdere fra forskningsinstitutioner i Danmark, England, Sverige og Australien. Hver session slutter med paneldiskussioner og spørgsmål fra salen. Symposiet foregår på engelsk.

Symposiet er for alle og kræver ingen særlig tilknytning til Nordsjællands Hospital.

Symposiet finder sted tirsdag den 21. maj 2019 fra kl. 9 – 16 i auditoriet på Nordsjællands Hospital i Hillerød.

Tilmelding: morten.bestle@regionh.dk

Frist: Mandag 20. maj

Tilmeldingsgebyret er på 50 Euro / 375 DKK og inkluderer forplejning.

Get inspired to pursue a career in research

Nordsjællands Hospital and Trial Nation are happy to invite you to the first Nordic Symposium on Research Career Opportunities for Healthcare Professionals on Tuesday 21 May, 2019 in the city of Hillerød in Denmark.

The symposium aims to highlight the diversity of research career choices available for nurses, laboratory technicians, physiotherapists and midwives. Whether you are a recent graduate, project assistant, PhD or senior, this symposium will cover a spectrum of relevant possibilities including academia, industry and governmental career paths.

It is an opportunity for you to get inspired and gain more information on research career opportunities. 14 speakers from around the world will give their perspective on career research opportunities in three consecutive sessions.

The symposium takes place on May 21, 2019 in the auditorium at Nordsjællands Hospital in Hillerød. It is an all-day event from 9 am to 4 pm. The registration fee for participation is 50 Euro / 375 DKK and covers food and beverage during the symposium.

We are looking forward to seeing you.

Registration: morten.bestle@regionh.dk

Registration Deadline: 20 May 2019

Nordsjællands Hospital, University of Copenhagen, is the largest, specialist acute care hospital for the population of the North Zealand region.

Trial Nation is a public-private partnership established to attract investments in clinical trials in Denmark. Trial Nation functions as a one point of entry to clinical trials in Denmark. Trial Nation establishes and facilitates national clinical research networks and improves framework conditions for clinical trials.

Research Career Opportunities for Healthcare Professionals

May 21st at Nordsjællands Hospital, Denmark

Program

- 09.00** Registration, coffee and breakfast
- 10.00** Introduction to the day
Morten Bestle and **Stig Mølsted**, Nordsjællands Hospital, Denmark

Session 1: Building Collaborative Clinical Research Groups – National and International perspectives

CHAIR: Morten Bestle

- 10.10** Building clinical and academic research capacity
Glenn Eastwood, Austin Hospital, Australia
- 10.25** Managing programs of research within a research institute
Naomi Hammond, Royal North Shore Hospital, Australia
- 10.40** Building a research network in Denmark – challenges with RAPIT study
Janet Froulund, Holbæk Hospital, Denmark
- 10.55** National and international collaboration in critical care nursing and interdisciplinary research
Ingrid Egerod, Rigshospitalet, Denmark
- 11.10** Trial Nation - A national platform to support clinical research in Denmark
Signe Humle Jørgensen, Trial Nation - Clinical Trials Denmark
- 11.25** Questions and discussion
- 11.45** **Lunch**

Session 2: Educational options and career paths within academic research

CHAIR: Naomi Hammond

- 12.30** Young nurse approach - Do you have enough experience to become a researcher at a young age?
Caroline Sophie Langkær, Nordsjællands Hospital, Denmark
- 12.45** A research career as Occupational Therapist in Sweden
Susanne Iwarsson, Lund University, Sweden
- 13.00** A Danish midwife research career driven by clinical curiosity
Jane Bendix, Nordsjællands Hospital, Denmark
- 13.15** From bedside nurse to chief principal investigator of an international clinical trial
Glenn Eastwood, Austin Hospital, Australia
- 13.30** Questions and discussion
- 13.45** **Coffee break**

Session 3: Career Options-Operational and Public-private collaboration

CHAIR: Signe Humle Jørgensen

- 14.15** Choosing an operational career in research – Australian perspective
Frances Bass, Royal North Shore Hospital, Australia
 - 14.30** The GCP units in Denmark/The daily work as GCP monitor.
Christina Truelsen, GCP monitor, Denmark
 - 14.45** Working as a Clinical Research Associate (CRA) in the pharmaceutical industry
Nan Hildebrandt, PPD, Denmark
 - 15.00** A research career as a nurse in Hematology
Rikke Duus, Rigshospitalet, Denmark
 - 15.15** Trial Nation - A national education initiative to support clinical research in Denmark
Signe Humle Jørgensen, Trial Nation - Clinical Trials Denmark
 - 15.30** Questions and discussion
 - 15.45** Closing remarks and summary
Morten Bestle, Nordsjællands Hospital, Denmark

Speaker list

Caroline Sophie Langkær, PhD stud., Nordsjællands Hospital, Denmark

Christina Truelsen, GCP-monitor, Region Hovedstaden, Denmark

Frances Bass, Royal North Shore Hospital, The George Institute, Australia

Glenn Eastwood, Austin Hospital, ANZICS RC, Australia

Ingrid Egerod, Prof. University of Copenhagen, Rigshospitalet, Denmark

Jane Bendix, Midwife, PhD, Nordsjællands Hospital, Denmark

Janet Froulund, post.doc, Holbæk Hospital, Denmark

Morten Bestle, MD, PhD, Sr. Consultant, Associate Research Professor, Nordsjællands Hospital, Denmark

Nan Hildebrandt, Head of DK, PPD, Denmark

Naomi Hammond, Royal North Shore Hospital, The George Institute, Australia

Rikke Duus, Manager of Clinical Trial Unit, Research Nurse, Rigshospitalet, Department of Haematology, Denmark

Signe Humle Jørgensen, MSc, PhD, Sr. Center Manager, Trial Nation - Clinical Trials Denmark

Susanne Iwarsson, Professor, PhD, DHC, ETP, reg. occupational therapist, Lund University, Department of Health Sciences, Faculty of Medicine, Sweden

Stig Mølsted, Physiotherapist, PhD, Nordsjællands Hospital, Denmark

Organizers

Morten Bestle, MD, PhD, Sr. Consultant, Associate Research Professor, Nordsjællands Hospital, Denmark

Signe Humle Jørgensen, MSc, PhD, Sr. Center Manager, Trial Nation - Clinical Trials Denmark

Sanne Lauritzen, Sygeplejerske med projektfunktion, Nordsjællands Hospital, Denmark

Lone Valbjørn, Sygeplejerske med projektfunktion, Nordsjællands Hospital, Denmark

Michelle Birknow, MSc, PhD, Special Pharma Advisor, Trial Nation - Clinical Trials Denmark

Meriam Blom van der Male, Pharma, Medtech Advisor, Trial Nation - Clinical Trials Denmark
